A MOTHER'S MINTAKE

Mothers frequently make a mistake in neglecting the cough of a child. A Fort Wayne, lod, lady writes, My little daughter 8 years old had a severe cough but as it was nothing unusual I thought nothing of it, and allowed it to run on for 4 or 5 weeks, when it became so obshinate she began losing fiesh. I called in a physician who treated her three weeks without benefit. A neighbor insisted upon my trying Ballard's Horehound Syrup; it relieved herefrom the first dose and she began gaining fiesh rapidly. When we had used two botles her cough had entirely disappeared, if would not be without it. It does not constipate my children, Ballard's Horehound Syrup; is free from Opistes. It's the mest sections Throat and Lung medicine in the world. Price 50c and \$1.00. Sold by Z. C. M. I drug department.

What the Americanized Encyclopædia Britannica is? It is the most complete and diversified

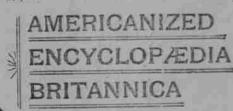

Library of Entertaining Literature

Ever issued from the press. Open its pages where you will, you will find something to attract and interest you.

If you are food of history, it contains the flocat collection of histories in the world, embracing every nation of succent and modern times, from hoary Egypt, with its civilization running back for thousands upon thousands of years, to the latest born of the great family of nations. And they are not dry as dust histories, either, giving nothing but dates and mere descriptions of events; but genuine historical works, as interesting an Alamanlay's History of England, and some of them from Lord Macaulty's pen. Or if you have a taste for travels and descriptions of strange countries and their peoples, the AMERICANIZED ENCYCLOPEDIA PHITANNICA will lead you with the famous voyagers and explorers among the same islands of the Southern Seas, through the dreary wastes of Arctic ice, serios the pull less wilds of Africa, or among the quaint peoples of the East. It will tell you of the vanished civilization of Peru, of the growth or subsidence of fendalism in Europe, of the social and governmental polity of modern nations. And if, while you are reading, you come across some reference to a great man with whose deeds you are unfamiliar, the Am vicanized Encyclopuelia Detannica contains a perfect library of biographical memoirs, to which you can turn with the certainty of finding just exactly what you went to know.

Aroyou interested in science? The Americanized Encyclopedia Britannics will tell you, in clear, understandable English, all about any sciouce you mer wish to study. Are you carious about mechanical inventions? The

predia describes them all. Or perhaps you want informati-.may to industry or mode of manufacturing? Again the Encycleug to your your hand; a moment's turning of its pages brings the p subject. In short, whether you want amusement for an rule hour, solid instruction for more serious moments, or quiet information about any matter as to which you are in doubt, the

IS THE YERY THING YOU NEED.

Why Americanized Encyclopædia Britannica? Because that is just exactly what it is the Encyclopedia Britannica revised and annuaded for American use. You want your Encyclopadia to tell you about Grant and Sherman and Sheridan and Hancock and Claveland and Harrison, don't you? Well, the Eucyclopædia Britannica won't do it. But the Americanized edition will. The latest edition of the original Britannica was compiled fifteen years ago, and gives no biographies of persons who were living at that time. Maybe you don't know that? The Americanized edition contains hundreds of new biographies, specially written for its pages, and including every prominent man

or woman in the world. You want fuller information about an American State than about an English county, don't you? You won't get it in the Encyclopædia Britannica, but you will in the Americanized Encyclopædia Britannica. Because the former work was compiled specially for the use of Englishmen, while the latter had been amended and revised especially for use in American homes. Sea?
